

Performance Improvement Plan (PIP) & Corrective Action Protocols

CLASSIFICATION / ACCESS LEVEL: HR OPERATIONS CONFIDENTIAL

This guideline details the standardized Performance Improvement Plan (PIP) procedure and corrective management process for employees failing to meet performance standards.

Identification & Verbal Warning: If an employee receives a performance rating below 'Meets Expectations' or demonstrates persistent delivery deficiencies, the direct manager must conduct a formal 1-on-1 discussion documented with HR.

Formal 30-Day PIP Process: If performance does not improve within 30 days of the verbal warning, a formal 30-Day PIP document is initiated. The plan outlines specific, measurable milestones and weekly check-in evaluations.

Outcomes & Resolution: Successful completion of all PIP milestones restores the employee to good standing. If the employee fails to meet the documented criteria after 30 days, HR and legal initiate mutual separation or employment termination with standard severance.
